Acer Aspire S7

The aluminum unibody plus Gorilla Glass 2 design of the Aspire S7 makes it incredibly slender, light and strong. At less than 12.9 mm, it's the thinnest Ultrabook with a super-crisp Full HD touch display on the market. And, the dual-torque hinge keeps the display very stable when you use it for touch control.
The Aspire S7's Full HD display generates deep detail and puts 10-point touch control at your fingertips. This Ultrabook is made for teamwork: Open it to 180 degrees, punch a hotkey to flip the view, and you're in shape to share.
